SUMMARY

Motivated and detail-oriented MCA student with hands-on experience in MERN Stack development and a strong foundation in software development principles. Skilled in building responsive web applications using MongoDB, Express.js, React.js, and Node.js, with practical exposure to frontend and backend development through academic projects and internship experience. Proficient in Java, Python, JavaScript, HTML, and CSS, with a good understanding of Data Structures and Algorithms, database management, and RESTful APIs. Passionate about problem-solving, continuous learning, and developing efficient, user-centric applications while contributing effectively in collaborative team environments.

PROFESSIONAL EXPERIENCE

Web Developer

01/2025 – 12/2025

Estmac Private Limited

Dehu, Pune

- Designed and developed responsive user interfaces using React.js, HTML, CSS, JavaScript, Material UI, and modern web design principles.
- Created UI/UX prototypes, wireframes, and visual assets using Figma and Canva to enhance user experience and maintain design consistency.
- Assisted in frontend and backend development of web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js).
- Integrated RESTful APIs and managed database operations to support dynamic application functionality and seamless data flow.
- Collaborated with developers and stakeholders to implement new features, improve existing functionalities, and ensure project requirements were met.
- Utilized AI-powered tools and prompt engineering techniques to accelerate content creation, design ideation, and development workflows.
- Identified and resolved application bugs, optimized website performance, and maintained clean, reusable, and scalable code.
- Participated in testing, debugging, and deployment activities while following industry best practices for software development.

EDUCATION

Masters of Computer Applications

09/2025 – Present

Modern Institute of Business Studies.

Nigdi, Pune

Bachelor of Computer Applications

08/2021 – 06/2024

Pratibha College of Commerce and Computer Studies

Chinchwad, Pune

8.35 cgpa

SKILLS

- MERN Stack Development (MongoDB, Express.js, React.js, Node.js)
- Frontend Development (HTML, CSS, JavaScript, Material UI, Tailwind CSS, NextJS)
- Java Programming
- Python Programming
- Data Structures & Algorithms (Fundamentals)
- REST API Development & Integration
- API Testing & Validation (Postman)
- Database Management (MongoDB, MySQL)
- UI/UX Design (Figma, Canva)
- Responsive Web Design
- Problem Solving & Analytical Thinking
- Team Collaboration & Communication
- Git & GitHub
- Responsive Web Design

CERTIFICATES

- Common Internship Test (Internship Studio)-2024 [🔗](#)
- Python Essentials Course (CISCO Networking Academy)-July 2023 [🔗](#)

LANGUAGES

- MERN Stack Development (MongoDB, Express.js, React.js, Node.js)
- Frontend Development (HTML, CSS, JavaScript, React.js, Material UI, Tailwind CSS)
- Backend Development & REST APIs
- Database Management (MongoDB, MySQL)
- Python Programming
- Data Structures & Algorithms (Basics)

COURSES

Core and Advanced Java Course Certificate [🔗](#)

12/2025 – 02/2026

Disha Computer Institute (Dehuroad-Pune)

Pune

Core Java & Advanced Java

Completed training in Core Java and Advanced Java with practical knowledge of object-oriented programming, exception handling, collections, multithreading, JDBC, servlets, and JSP. Developed strong understanding of Java application development, database connectivity, and backend programming concepts.

MERN FULL STACK [🔗](#)

05/2025 – 04/2026

Disha Computer Institute (Dehuroad-Pune)

Pune

Completed comprehensive training in MERN Full Stack Development, gaining hands-on experience in building responsive and scalable web applications and dynamic websites using MongoDB, Express.js, React.js, and Node.js. Worked on frontend and backend development, REST APIs, database management, authentication, and deployment of full-stack applications.

PROJECTS

STRIVORA AI-Smart Goal and Task Mastery System [🔗](#)

05/2026 – 06/2026

https://github.com/akankshayadav12/Strivora_AI

- Developed Strivora AI, a full-stack goal management platform using the MERN stack, enabling users to convert complex goals into actionable milestones through Google Gemini AI integration. Implemented secure JWT-based authentication, custom Axios interceptors, and protected REST APIs, ensuring secure session management and seamless communication between frontend and backend services.
- Built an interactive analytics dashboard with real-time productivity metrics, task tracking, and data visualizations using Recharts, improving user engagement and progress monitoring.
- Designed and deployed a responsive, production-ready application using React.js, Material UI, Node.js, Express.js, and MongoDB, integrating 10+ API endpoints and cloud-hosted services for scalable performance.

HISTORY CARD MANAGEMENT SYSTEM [🔗](#)

Github-https://github.com/akankshayadav12/History_Card

- Developed a role-based Student History Card Management System for **1,000+ students**, enabling efficient management of academic records and daily progress tracking.
- Designed Admin, Faculty, and Student modules with secure JWT authentication, REST API integration, and database-driven workflows for streamlined record management.
- Built and deployed a responsive full-stack application using React.js, Node.js, Express.js, MongoDB, and Material UI, improving data accessibility and user experience.

ASSERTIVE INDUSTRIES (Website)

Github- <https://github.com/akankshayadav10/Assertive-Industriess>

- Redesigned and modernized the frontend of a live industrial company website by improving UI layouts, navigation flow, typography, visual hierarchy, and responsive design, resulting in a more professional and user-friendly digital presence.
- Developed reusable React.js components and implemented responsive interfaces to ensure seamless user experience across desktop, tablet, and mobile devices. Enhanced website performance, accessibility, and overall usability through optimized design practices and clean frontend architecture.
- Collaborated with stakeholders to understand business requirements and translate them into intuitive user interfaces. Utilized modern design principles and UI/UX best practices to improve content presentation, user engagement, and brand consistency across the website.
- Technologies Used: React.js, Next.js, JavaScript, Tailwind CSS, Material UI, Responsive Web Design.
